Introduction

This document is divided into 3 sections:

- Home Page and Logging In
- Resetting Password
- Firefox Browser

This document explains how to get to the Learning Management System web page and how to properly log into the system, as well as what to do if you do not remember your Eagle ID (user ID and password).

Home Page and Logging In

You can get to the Eagle Online Learning Management System (EO) by visiting:

http://eo2.hccs.edu

To log in, you need to use your Eagle ID.

Your Eagle ID Username is the same as your W number that you received upon admission to HCC. Your Eagle ID Password is the same as your HCC Student Email Password. Email accounts are received upon enrollment.

Once entered, click on the Login button.

NOTE: If you do not know your W-number, you will need to retrieve from the Student System Sign-in screen by clicking “Forgot My User ID”.

Welcome to Houston Community College!

Reset My Password Help
Resetting password
If you have forgotten your HCC Email password, you may reset it on your own once you have set up your challenge questions/responses in the Student System.

Challenge questions certify that you are the valid user of the account and allow you to reset your password unassisted. You must log-in to the Student System to set these up. You may change your Email password at the same site.

Firefox Browser
You will need to use the FIREFOX web browser when in Eagle Online 2.x. You can get the latest version by selecting the Firefox link on the right side of the page.

For more information about your Eagle ID visit: http://www.hccs.edu/eagleid
